RE:   Airs Facility No. 777-00118, Coleman Construction Incorporated, Dillon, Montana  
      Permit by Rule Registration

Dear Ms. Coleman:

On July 24, 2003, the Department of Environmental Quality (Department) received a Permit by Rule (PBR) registration from Coleman Construction Incorporated (Coleman) for a nonmetallic mineral processing plant. Coleman has registered the following information as required by IDAPA 58.01.01.797.02 *Rules for the Control of Air Pollution in Idaho*.

Cedar Rapids fine head roller cone 54" crusher Serial No.: 117X173 Manufacturer Date: 1971 Capacity (T/hr): 75	El-jay deck screen Deck Size: 5' x 16' No. of Decks: 3 Serial No.: Manufacture Date: 1974	Caterpillar Generator Capacity (kw): 300 Fuel Type: Diesel
Simmons-Nordberg cone crusher Serial No.: 41397 Manufacturer Date: 1972 Capacity (T/hr): 200	El-jay deck screen Deck Size: 6' x 16' No. of Decks: 3 Serial No.: Manufacture Date: 1984	Caterpillar Generator Capacity (kw): 550 Fuel Type: Diesel

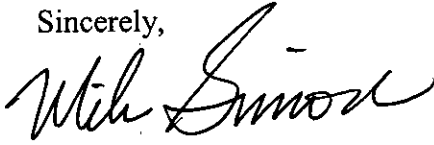

Owners and operators of nonmetallic mineral processing plants that opt for a PBR shall comply with all of the applicable provisions of IDAPA 58.01.01.795-799. This PBR replaces the Permit to Construct No. 777-00118 issued on January 13, 1995. Registration for a PBR does not relieve the owner or operator of portable equipment from the registration and relocation requirements of IDAPA 58.01.01.500. The Department recommends that Coleman maintain this letter, the July 24, 2003 PBR registration, and all required monitoring and recordkeeping information at each site of operations.

Please be aware that Coleman is required to submit a portable equipment relocation form each time the plant, or any registered equipment, is moved to a new site of operations. This form is required to be submitted to DEQ ten days prior to relocating the equipment. A copy of the form is enclosed for your convenience.

Coleman Construction Inc.
